**College Transfer**

CFCC’s college transfer program is a great way to earn the first two years of a bachelor’s degree at a fraction of the cost of a four-year college or university. With small class sizes and experienced faculty, CFCC students have access to the resources of a large college but get personalized attention from instructors. CFCC college transfer graduates are accepted as juniors at four-year colleges and universities all over North Carolina.

**Career Training**

CFCC’s technical and vocational programs offer the skills students need to get great jobs. Our faculty are experienced professionals in their fields and the college’s teaching facilities offer a real world setting so graduates are ready for work right after graduation.
