

CFCC KIDS' COLLEGE PRE-REGISTRATION FORM

Mission:

The CFCC Kids' College will provide multi-sensory continuing education for vacationing students in grades K- through 12. The instructional design of courses will reflect the North Carolina Department of Public Instruction's guidelines – goals and objectives for age and grade specific levels. Hands-on learning will always focus fun-filled instruction for a variety of academic disciplines.

Date ___/___/___

Return Forms To: bsmall@cfcc.edu or to CFCC, BIG Center, 805 North Third Street, 'T' Bldg., Wil., N.C. 28401, Attn: B. Smalls.

U.S. Shipping Policy and Rates

SunWind Solar is located on **Salt Spring Island** (off the coast of **Vancouver**), part of the chain of islands known as the **San Juan Islands** in the U.S. **Mail leaves the island once a day.**

Individual kit orders are processed within 24 - 48 hours of receipt. All individual kits are sent **Air Mail**, in a padded mailer. This inexpensive shipping option usually takes a week, occasionally two, and is not trackable. This is the option that shows up on the automated shipping form. It might be best to allow two weeks for delivery - once in a while a package is taken aside in Customs and the usual one-week delivery time suffers.

Individual kits can also be sent via **International Express Mail**. This insurable trackable relatively quick option still takes a **guaranteed 6 business days** (including **Saturdays**) for delivery, depending on where you live in the States. (Consider that the further you are from Seattle, the longer it takes and the more it costs). Pricing for Express Mail starts at **\$19.00 - \$23.00 US** depending on your region. Please call ahead, or state this option desire in the Comments box at check-out. Your invoice and credit card billing will be adjusted accordingly.

Air Courier is not an option.

Classroom kit orders and orders above 2.2 pounds (1 kilogram) are sent via **International Express Mail**, which is **trackable** and **insurable**, and relatively quick (**4 - 6 business days**). Some preparation time is required for classroom kits - please allow a week for production, and a week for shipping, for a total of two weeks. In the case of SolRum kits, because there are so many pieces, and a shortage of any one can hold us up, please allow an extra week, just in case. Again, if you require your order quicker, please phone ahead or make a note in the comments box. Smaller orders are normally shipped within 2 - 3 days.

There are no other fees or charges for shipping educational kits from Canada to the States. No Customs duty and no taxes. Through Canada Post, no brokerage fees are required. There are no State taxes applicable - we are a Canadian corporation and cannot collect US taxes.

**Delivery times to the U.S. can be somewhat unpredictable due to rigid border security and we caution you to be patient. If your order doesn't arrive in a reasonable amount of time, we will investigate.

SHIPPING: International (outside Canada and the U.S.)

Individual kits are sent via **International Air Mail** (unless otherwise specified) and can take 1 - 3 weeks for delivery, depending on where you are on the planet. Delivery costs for an individual kit vary from \$8.00 to \$11.00 US. For larger orders, we normally re-contact you with international mail shipping options, and proceed from your choice.

PayPal

To pay for your order through our PayPal account, in our Secure Checkout Form choose the Payment Method "Pay Via Paypal (Int. Cust.)". We will confirm shipping charges by email before you pay anything.

If you have already placed your order and we have established your total including shipping you can proceed to click the button below to pay your Grand Total as detailed in our email communication.
