PHLEBOTOMY DIPLOMA PROGRAM
SELECTIVE ADMISSION PROCESS
Fall 2018

APPLICATION DATES
March 7, 2018 through May 22, 2018

INFORMATION SESSION
Tuesday, March 27th  2:00-3:00  Room L-321
Thursday, April 26th  2:00-3:00  Room L-321
Tuesday, May 1  2:00-3:00  Room L-321

MINIMUM REQUIREMENTS ARE SUBJECT TO CHANGE EACH ACADEMIC YEAR.

The Phlebotomy curriculum prepares individuals to obtain blood and other specimens. The curriculum will focus on skill development in the performance of a variety of blood collection methods using proper techniques and standard precautions. Blood collection procedures performed includes vacuum collection devices, syringes, capillary skin puncture, butterfly needles and blood culture, and specimen collection on adults. Collection of specimens from children and infants is discussed. Emphasis will be placed on infection prevention, patient identification, specimen labeling, quality assurance, specimen handling, processing, accessioning, professionalism, ethics, and medical terminology. Students will learn the theory and principles of CLIA waived laboratory tests and perform the tests in the student laboratory. The CLIA waived testing performed glucose testing, urinalysis dipsticks, fecal occult blood, erythrocyte sedimentation rate and pregnancy testing.

Graduates may qualify for employment in hospitals, clinics, physicians’ offices, and other healthcare settings and may be eligible for the ASCP (American Society of Clinical Pathology) national certification as a Phlebotomy Technician, PBT(ASCP).

It is important that all applicants for the Phlebotomy program understand the selective admission process. Applicants who wish to submit a Phlebotomy application must first meet minimum requirements. Please review carefully the information regarding minimum requirements and other pertinent information listed below.

Phlebotomy Program Mission

The mission of the Phlebotomy Program at Cape Fear Community College is to prepare graduates to develop a working knowledge of the principles and procedures of phlebotomy, to produce accurate, skilled phlebotomists with strong ethical and professional values, and to encourage respect and understanding of all allied health professionals. Upon graduation students will be considered competent Phlebotomy Technician, PBT(ASCP).

APPLICATION PROCESS

It is the Phlebotomy applicants’ responsibility to ensure that all requirements are met by the established deadline. Phlebotomy deadlines, guidelines, and policies apply equally to all students; thus, there can be no exceptions.
All Applicants must appear in person at the Counseling Office of Cape Fear Community College in the Union Station Building Room U-240 (Wilmington Campus) or Room NA-100 (North Campus). No applications will be taken over the telephone or by mail/written correspondence.

The following steps must be completed prior to completing the “Intent to Apply” to the program for the Fall 2018 semester. All applicants for Phlebotomy must be eighteen (18) years of age or older.

1. Complete the CFCC General Admissions Application (including Residency Determination Application).

2. Complete appropriate Placement Test, if required by the Admissions Office and meet minimum cut-off scores on the Placement Test.

3. Request official transcripts from a regionally accredited high school/GED agency. High school/GED transcripts must indicate the date graduated. Official transcripts are those received either by mail or by hand delivery to CFCC in the original, sealed envelope from the awarding institution or agency. If you graduated from a North Carolina public high school since 2003, you may request your official high school transcript be sent electronically to the Admissions Office via the College Foundation of North Carolina (CFNC) website at www.cfnc.org. Home schooled students must submit a copy of the home school’s approved registration from the state in which they are registered, and an official transcript including the graduation date and documentation of completion of competency testing.

4. Request official transcripts from all colleges and/or universities attended be mailed to the Admissions and Records Office. These will be reviewed for possible transfer credit.

5. Students must have an overall GPA of 2.0 or higher in all post-secondary coursework completed at Cape Fear Community College. After an “Intent to Apply” has been filed, you must maintain a minimum GPA of 2.0 to enter the program in the fall. If your CFCC GPA is below 2.0 and you have not been enrolled in CFCC for 3 consecutive years, you may be eligible for academic forgiveness. (Refer to the 2017 – 2018 catalog.)

NOTE: Neither federal law nor North Carolina law permits undocumented individuals or those with DACA (deferred action for childhood arrivals) classification to receive professional licenses. See 8 U.S.C. § 1621(a) and (c)(1)(A). This does not prevent a DACA student from enrolling in a Health Science program but will prohibit the student from receiving a professional license.

**Minimum Admission Requirements**

1. **Placement Test Scores**

To be considered eligible to apply to the program, all applicants must meet the minimum requirements on the appropriate Placement Test*.

An unweighted North Carolina high school GPA of 2.6 or higher may waive placement testing (graduation within the last 5 years). The student must meet specific high school math course requirements for high school GPA consideration (Multiple Measures).
*Completion of English 111 or its equivalent may eliminate taking a placement test.

<table>

</thead>
<tbody>
<tr>
<td>151 Reading + Writing</td>
<td>166 Reading + Sentence</td>
<td>151 English</td>
</tr>
</tbody>
</table>

SAT
500 Reading or 500 Writing (prior to March 2016)
Or
480 Evidence-Based Reading/Writing (tested after Feb. 2016)

ACT
18 English or
22 Reading

If an applicant scores less than the minimum cut-off scores on the Placement Test, he/she will be required to complete the essential sequence of developmental courses/modules. If the student completes all of the required remedial courses/modules with a grade of “C” or higher and/or a grade if “P” prior to the application deadline date and meets the other minimum requirements, he/she may be considered eligible to apply to the Program.

The Placement Test or any combination of Placement Tests may be taken twice in twelve (12) consecutive months and must have been taken in the last five years. However, when a phlebotomy applicant has tested more than twice in twelve consecutive months, only the first two attempts will be considered in the application process. Placement test scores which violate the testing policy will be disregarded.

If the Placement Test has been taken at another community college (in the past five years), it is the student’s responsibility to ensure that the official scores are transferred to Cape Fear Community College.

Accommodations for testing due to a documented disability may be made with the Disability Support Services office in the Union Station Building (U-218) or call (910) 362–7012 or (910) 362-7158.

2. PHLEBOTOMY SELECTION PROCESS

Applicants to the Phlebotomy program are selected on a “best qualified” basis. The point system was implemented as an objective means for evaluating Phlebotomy applicants. Phlebotomy applicants will be ranked based upon points earned, and the students with the highest number of points will be selected. If two or more students have the identical point count total, the date and time the “Intent to Apply” form was completed with a counselor will be the determining factor. Fourteen (14) new students may be admitted to the Phlebotomy program each academic semester.

Points are awarded as follows:

a) Information Session:

Three (3) points will be awarded for attending one (1) of the information sessions listed below. A certificate of attendance must be filled out (by student) and collected by a counselor immediately after the information session for points to be awarded. Points will not be awarded for late arrival or if you leave the information session early.

<td>2:00-3:00</td>
<td>Room L-321</td>
</tr>
</tbody>
</table>
b) College/High School GPA:

If applicant has completed at least 12 semester hours (or equivalent) of college credit from ONE regionally accredited institution, the highest GPA will be used. If not, high school transcript unweighted GPA or High School Equivalency scores will be used.

c) Documented Medical Experience:

Previous health professional training (college coursework) or proof of current certifications from a regionally accredited institution. Official documentation must be on file in the Counseling Office by 4:30 pm on the last day of the application period for points to be awarded. No points will be awarded for documentation received after application deadline.

Phlebotomy applicants who are selected will be conditionally accepted in the program pending the submission and review of a favorable medical report. The medical form will be provided by Cape Fear Community College. If a student did not meet minimum requirements, was not accepted, or declined admission, he/she can re-apply for the next semester.

Admission to all educational programs offered by Cape Fear Community College are made without regard to race, color, sex, national origin, gender identity, sexual orientation, disability, veteran status or other irrelevant factors.

NOTIFICATION PROCEDURE

Fourteen (14) new students may be admitted to the Phlebotomy Diploma program each Fall semester. Students whose status is “alternate” are admitted to the program only if someone who was originally accepted, declines the offer of admission, or if someone who was originally accepted becomes disqualified (refer to disqualifying factors).

_The 14 selected students will be notified when to complete the following information:_

1. **Mandatory Orientation/Registration**
   The fourteen (14) students selected will be required to attend a mandatory orientation with the Phlebotomy program director. **Failure to attend will result in forfeiture of your Phlebotomy seat.** Information on obtaining a drug screen and criminal background check will be provided at the Phlebotomy Orientation. The orientation date, time, and location, will be included in the acceptance letter.

2. **Medical Reports**
   All completed health/medical reports must be received by the specified date noted in the acceptance letter. Students will be given further information and instructions during the Phlebotomy Orientation on accessing the medical forms necessary for completion of the clinical portion of this program.

3. **Criminal Background Check**
   All phlebotomy clinical sites require both criminal background checks and drug screenings prior to allowing students into the clinical setting (associated fees are the responsibility of the student). The drug
test includes a twelve (12) panel urine drug screen. Testing positive on the drug screening or evidence of specimen tampering, will disqualify a student from participation in clinical rotations and is grounds for immediate dismissal from the Phlebotomy Program. Furthermore, criminal activity reported on the criminal background check may also disqualify a student from clinical participation and be grounds for immediate dismissal from the program. Both the criminal background check and drug screening are mandatory, student refusal to take part in either of these activities will be dismissed from the program. Students will be given further information and instructions during the Phlebotomy Orientation on when and how to access all forms. For more detailed policy information, students should see the “Drug and Alcohol Policy” in the 2017-2018 CFCC Student Handbook.

4. CPR
Students must submit documentation of current CPR* certification from the American Heart Association. The certification must be the Basic Life Support (BLS) for the Healthcare Provider Course, which includes Rescuer CPR and AED usage for adults, children and infants. The BLS certification must include skills practice and skills testing and require that students complete and pass a written examination.

*Please note that online CPR certification courses will not be accepted!

PROGRESSION POLICY

Students admitted to the Phlebotomy Diploma Program must achieve or have achieved a “C” in each course in the curriculum to progress semester by semester.

**Grading Policy**

A. PHYSICAL AND COGNITIVE EXPECTATIONS OF A PHLEBOTOMY STUDENT
Phlebotomy is a practice discipline with cognitive, sensory, affective, and psychomotor performance requirements. For purposes of program compliance with the 1990 Americans with Disabilities Act, a qualified individual with a disability is one who with or without reasonable accommodation or modification meets the essential eligibility requirements for participation in the Phlebotomy program.

If a student believes that he or she cannot meet program requirements without accommodations, Disability Support Services will determine, on an individual basis, if the necessary accommodations or modifications can be reasonably met.

B. DISQUALIFYING FACTORS
Students may be denied admission to the Phlebotomy program for any of the following reasons:

A. Physical or emotional health, which indicate impairment in the ability to provide safe medical care to the public.

B. Conduct not in accordance with the standards of a Phlebotomist:
   1. Has given false information or has withheld material information;
   2. Has been convicted, pleaded guilty or nolo contendere to any crime which indicated that the individual is unfit or incompetent to work as a Phlebotomist.
   3. Uses any drug to a degree that interferes with his/her fitness to practice Phlebotomy.
   4. Engages in conduct that deceives or defrauds the public or which endangers the public’s health.
CFCC provides reasonable accommodations to otherwise qualified students with disabilities, if such disabilities, as determined on a case-by-case basis, do not preclude the student from meeting the qualifications considered essential to the program. The essential functions (Core Performance Standards) are listed in the chart below:

### CORE PERFORMANCE STANDARDS

<table>
<thead>
<tr>
<th>ISSUE</th>
<th>STANDARD</th>
<th>SOME EXAMPLES OF NECESSARY ACTIVITIES</th>
</tr>
</thead>
<tbody>
<tr>
<td>Critical Thinking</td>
<td>Critical Thinking ability sufficient for clinical judgment</td>
<td>Identify cause-effect relationships in clinical situations, develop patient plans</td>
</tr>
<tr>
<td>Interpersonal</td>
<td>Interpersonal abilities to interact with individuals, families, and groups from a variety of social, emotional, cultural, and Intellectual backgrounds</td>
<td>Establish rapport with patients/clients and colleagues</td>
</tr>
<tr>
<td>Communication</td>
<td>Communication abilities sufficient for interaction with others in verbal and written form</td>
<td>Explain treatment procedures, initiate health teaching, document and interpret patient actions and patient/client responses</td>
</tr>
<tr>
<td>Mobility</td>
<td>Physical abilities sufficient to move from room to room and maneuver in small places</td>
<td>Moves around in patient’s rooms, work spaces, and treatment areas, administers cardiopulmonary procedures</td>
</tr>
<tr>
<td>Motor Skills</td>
<td>Gross and fine motor abilities sufficient to provide safe and effective patient care</td>
<td>Calibrate and use equipment; position patients/clients</td>
</tr>
<tr>
<td>Hearing</td>
<td>Auditory ability sufficient to monitor and assess health needs</td>
<td>Detects monitor alarm, emergency signals, abnormal breathing sounds, cries for help and ability to respond to patient in need.</td>
</tr>
<tr>
<td>Visual</td>
<td>Visual ability sufficient for observation and assessment necessary in patient care</td>
<td>Observes patient/client responses, such as skin color changes</td>
</tr>
<tr>
<td>Tactile</td>
<td>Tactile ability sufficient for physical assessment</td>
<td>Perform palpation, functions of physical examination and/or those related to therapeutic intervention, e.g. insertions of a catheter</td>
</tr>
</tbody>
</table>

Students who feel they need accommodations should contact the Disability Support Services office in the Union Station Building Room U-218 on the Downtown Campus or call 910 362-7158 or 910 362-7012.

### ACCREDITATION

The Phlebotomy Program is accredited by:
NAACLS (National Accrediting Agency for Clinical Laboratory Sciences)
5600 N River Rd Suite 720
Rosemont, Illinois 60018
Phone: 773-714-8880
Fax: 773-714-8886
Email: naaclsinfo@naacls.org
Web Site: [http://www.naacls.org/](http://www.naacls.org/)

### COUNSELING

If you have questions or concerns regarding the selective admissions process, please contact a counselor in room U-240 Union Station Building Wilmington Campus or at the North Campus in Room NA-100.

Revised 8/2017
Financial Aid

The Financial Aid office monitors a policy that is based on federal regulations that establishes a maximum time frame for completion of a program of 150 percent of the published length of an educational program. This means that as a student majoring in a Pre- Health Science program, you will need to pay careful attention to the number of hours you attempt prior to actual admission into your program of choice. Depending on the number of hours that you have attempted prior to admission into Phlebotomy (or any Health Science program), you may not be eligible for enough financial aid to complete the program after you have been admitted.

To make sure you understand this policy and that your financial benefits are used in a wise and timely manner, please consult with the financial aid office located in the Union Station Building Room U-138 (Downtown) or the McKeithan Center Room NA-100 (North Campus).
