HIGH SCHOOL STUDENTS REGISTERING FOR COLLEGE CLASSES

REGISTRATION PROCEDURES: High school students are enrolled on a space-available basis. High school principals/designees must approve this registration card before it is submitted to CFCC. **Huskins Students:** To register for a **Huskins class that meets at a high school**, submit this approved card to visiting CFCC counselor/official during your first class meeting. To register for a **Huskins class that meets at CFCC** or for **concurrent enrollment**, take this approved card to Concurrent Enrollment Registration at CFCC on Final Schedule Adjustment Day. **Early College Students:** Give this card to your program's college liaison during the academic advising period.

PROGRAM COSTS: Tuition is waived for **approved courses** during fall and spring semesters. Students who enroll in classes that meet at CFCC or online may be responsible for student activity, parking, security, and technology fees. Fees must be paid at the CFCC Business Office at the time of registration. Failure to pay fees may result in automatic withdrawal from CFCC courses. Students are responsible for purchasing required textbooks and supplies for each course. Summer tuition is not waived and is the responsibility of the student.

COURSE INFORMATION: Students must meet all prerequisites/co-requisites for CFCC courses they wish to take. Not all CFCC classes will transfer to four-year colleges. See the *CFCC Catalog and Student Handbook* for more information. State guidelines strictly limit Huskins and concurrent enrollment students to science, math, and technology disciplines. (Summer courses designated as "self-supporting" may not be subject to the same restrictions.)
