   **Note:** Either of the rates may be cited in license examination “national” section and students must be able to perform calculations using either rate.

2. **Property Subject to Taxation**

3. **Listing Property for Taxation**

4. **Appraisal and Assessment**

   **Note:** NC law states that the “assessed value” of real property for property taxation purposes in NC must, with a few exceptions, be its “market value” (“...its true value in money”) at the time of assessment. However, in other states, the assessed value for property taxation purposes may be a value that is less than market value – for example, it might be 50% of market value. License examination “national” section questions might, therefore, mention an assessed value that is less than market value and these questions should be answered based on the given information about assessed value rather than on the NC practice. Also, should the term “true market value” be encountered on the license examination, the term should be assumed to mean “market value.”

3. An agent is expected to be able to recognize patent signs of flooding on a property or when a property’s location may make it susceptible to flooding (e.g., location on a river or creek), and should assist the party involved in

XIII. REAL PROPERTY VALUATION

A. Introduction

1. **Key Definitions and Law Changes**
   a. “Real Estate Appraisal”
   b. “Broker Price Opinion (BPO)” and “Comparative Market Analysis (CMA)” have exactly the same meaning under NC law.
   c. Law now permits a licensed “non-provisional” broker (with a current and active license) to perform a BPO/CMA for a fee.
   d. A broker’s BPO/CMA may only estimate the “probable selling price” or “probable leasing price” of a property, not the “value” or “worth” of a property. Any estimate of a property’s “value” is considered to be an “appraisal” and must be performed by a licensed or certified real estate appraiser.
   e. A BPO/CMA provided by a non-provisional broker for a fee must be performed in accordance with Article 6 of the NC Real Estate License Law and rules adopted by the Real Estate Commission.

2. Revisions to Real Estate License Law and Appraisers Act now permit, effective October 1, 2012, a non-provisional broker only to perform a BPO/CMA for a fee for anyone without the need for an actual or prospective brokerage relationship with that person/entity, subject to certain restrictions:
   a. The BPO/CMA may NOT be performed to serve as the basis for determining the value of property for the purpose of making a mortgage loan (first, second, refinance or equity line of credit).
