College Pathway: Collision Repair and Refinishing Technology

The Collision Repair and Refinishing Technology curriculum provides training in the use of equipment and materials of the autobody repair trade. The student studies the construction of the automobile body and techniques of autobody repairing, rebuilding, and refinishing. The course work includes autobody fundamentals, industry overview, and safety. Students will perform hands-on repairs in the areas of non-structural and structural repairs, mig welding, plastics and adhesives, refinishing, and other related areas.

Admission & Enrollment Requirements

Collision Repair and Refinishing Certificate

To be eligible for enrollment in this program, you need to meet the following criteria:

1. Be a high school junior or senior;
2. Have a weighted GPA of 3.0 on high school courses or your principal’s approval;

Interested?

If you meet these qualifications, submit your completed application along with the latest version of your high school transcripts to CFCC. For more information, please see your school counselor and visit our website: www.cfcc.edu/ccp.
