Boat Building (C35120CP)

This pathway prepares students for employment in the manufacture and service of boats. Students learn the basics of boat design and the implementation of those designs in various components and/or complete boats or yachts. Course work includes reading and interpreting marine blueprints, manuals, and other documents common to the industry; lofting; constructing forms and mold-making; application of concepts and techniques in composite, and fiberglass; marine woodworking; interior finishing; and marine mechanical, electrical, and plumbing systems.

Admission & Enrollment Requirements
Boat Building

To be eligible for enrollment in this program, you must meet the following criteria:

1. Be a high school junior or senior;
2. Have a weighted GPA of 3.0 on high school courses or your principal's approval;

Costs

- Tuition is waived for college courses.
- Students are responsible each semester for technology, activity, and parking/security fees.
- Students are also responsible for purchasing required textbooks and supplies for each course.
