

The Health Science Application Overview and Checklist

(Non-Program Specific)

STEP 1: Be Admitted to the College

- Complete the CFCC general admissions application, which includes the Residency Determination Application (if you have applied or have taken classes at CFCC before: your application has to be active)
- Request official transcripts from a regionally accredited high school/HS Equivalency agency and any colleges attended (if applicable)
- Meet minimum Math and English requirement (see information packet for details).
- Attend a program information session (Optional: be sure to check the program websites for dates, times, and access links; points only awarded for some)

STEP 2: File the Intent to Apply to Health Science Programs

- Check the program information packet to determine if you meet the minimum requirements to file your Intent to the program (information packets can be found on the respective program websites)
- File the Intent to Apply online during the application period ONLY (to apply go to the specific program website)
- Check your CFCC email for your application status. If you meet the program application requirements you will be prompted to schedule the PSB Exam.
- Instructions will be sent to your CFCC email to schedule the PSB
- Complete the PSB testing on scheduled date and time (be sure the test date works for you, rescheduling is strongly discouraged, but should an emergency occur students must contact CFCC's Testing Services to reschedule for on campus testing. For off campus testing, follow the test company's guidelines).
- Receive an official copy of your PSB exam scores (test scores will be emailed to students within 2-3 days)

STEP 3: The Selection Process

- If the program requires a minimum PSB score (see information packet), did you meet the requirement?
 - **YES:** If you meet the minimum PSB score requirements you will receive an email to review your point count
 - **NO:** If you do not meet minimum PSB score requirements you will receive an email stating that requirements are not met. You are welcome to apply online to other programs or come to the Health Science Enrollment Center to discuss other Health Science programs
 - **NOTE:** Not all programs have a minimum PSB score requirement, check the requirements for your program. If the program does not have a minimum PSB score requirement, all students who have completed the PSB exam will receive an email to review point counts
- When the point count review has been completed, check your CFCC email for the decision rendered in the selection process (please allow processing time)

NOTE: Please be sure to read program information packets thoroughly and carefully for application and program details. Visit the Health Sciences webpage at: www.cfcc.edu/healthsciences or contact us at healthsciences@cfcc.edu
