- CREATIVE PROBLEM SOLVING
- PROFESSIONAL DEVELOPMENT

SUMMARY

As a former educator, I believe in the power of coaching professionals toward success. I have personally coached over one hundred teachers, administrators, and additional staff, using data to drive our discussions. I have developed district and statewide processes to assist others in focusing on goals and outcomes. With over 26 years in education, I am still dedicated to making an impact.

WORK EXPERIENCE

Classroom Teacher and Gifted Education Specialist

- Supported teachers and students in differentiation of instructional curriculum
- Developed and provided professional development for advanced academics

Supervisor of Academically and Intellectually Gifted

- Manage and track project budgets to ensure effective deployment and spend in line with budget
- Developed and provided professional development to local and state educators
- Serve the state as a regional leader, assisting in the development of state policy

Supervisor of Online Learning

- Oversight of the Online Learning program for the district, including collection of individual school data, creation of an annual report, and providing personalized support to virtual programs
- Build systems and processes for the origination of local online courses
- Manage staff and the documentation of student data
- Develop and implement district processes for transitions and program opportunities
- Market programs to schools and the community at large
